

Before Letter Reading

Please find attached the AP Environmental Summer assignment. Please do not be overwhelmed. You can do it in chunks. The only instruction I have is that you do the diagnostic test in one sitting: 90 minutes for the multiple choice and 40 minutes for the 2 FRQ's. You can split that up, but please don't split up the sections.

If you have ANY questions at all about content, expectations, or the like, please please please do not hesitate to contact me. I am always connected to my email throughout the summer and am happy to help whenever I can. I will be out of touch from June 18- June 29 for vacation. In the Grand Canyon...probably without service!

In the course of going through this packet, if you see any mistakes, please bring them to my attention. I am looking forward to being with all of you next year.

God's Best,
Mrs. Leslie
